## KENT'S ULTIMATE MOVING HOUSE CHECKLIST, FILLED WITH MOVING HOUSE TIPS AND PACKING TIPS!

Our moving checklist comes from successfully moving a million Australians over the last 70 years. Having been entrusted with over 30,000 moves each year, we know all too well the stresses and challenges of moving. So whether you enlist Kent as your professional removalist, choose another removalist, or you're going to tackle it on your own, we'd like to share our vast experience to help you have a successful, affordable, stress-free move.

### WHERE TO START

Your first challenge is to gain a full understanding of the many tasks ahead. This document includes six helpful moving checklists covering everything that needs to be done from two months before, right up to and on moving day. Read through the entire moving list initially, and then follow the individual tips for moving house to avoid some of the common pitfalls and mistakes that can cost you precious time and money.

### KEEP IN MIND

Remember there are some general 'truths' of moving:

- ✓ Belongings often take up more space than you first think, (so be sure to get an accurate volume estimate)
- ✓ Secure packing and safe moving is time-consuming, (so start packing soon and allocate longer than you expect, see Kent's helpful packing tips for more information)
- ✓ You'll rediscover belongings you no longer use, need or want, (so use this opportunity to sort through items to sell, donate, give-away, discard or place in storage)
- ✓ There are many important factors that will influence the success and cost of your move, (so consult with a trusted professional)
- ✓ Moving house can be harder and more stressful than you think, (so start early, plan well and get help from others)
- ✓ Better to have excess than not enough packing material, (so

avoid extra buying trips by getting more than you think you'll need, then return what you don't use)

- ✓ Most items weren't made to be moved, so they can be difficult to move without damage, (so make sure your belongings are well packed, moved by someone you trust and insured against mishaps).

# Moving House Checklist and Tips

## Two Months to Moving Day

Begin this moving checklist two months before your move:

**Moving interstate** or **relocating overseas**? You'll want a copy of our *Moving Interstate Checklist* or *Moving Overseas Checklist* too. Or download some handy additional **Kent moving house packing tips and storage tips.**

- Begin making an itemised, written budget to keep a record of all your moving expenses
- Create a central folder to store all your moving documents (e.g. quotes, receipts)
- An important part of this moving house checklist is choosing and booking your removalists (even if you haven't confirmed an exact move date yet). Remember:
  - > You should only get quotes from professional expert removalists, (too many things can go wrong and, your belongings are too important to trust anyone else)
  - > Many important variables affect the success and cost of your move. These include actual volume being moved, special item handling, (e.g. piano, pool table, vehicles, pets) distance and access to your homes, and time and day of your move (i.e. a discount may apply if you're flexible with dates)
  - > Obtaining an accurate quote helps ensure a smooth moving experience with no surprises. It's vital to have an expert removals consultant make a home visit or gather and discuss full details about your move in a thorough phone consultation. (With Kent you can receive an **instant 24/7 online moving quote**, and then speak to a removals expert on the phone to discuss further and/or arrange a free no obligation in-home visit)
- Arrange secure storage facilities if required (Kent **short and long-term storage** is more secure and up to 50% cheaper than self-storage)
- Organise to relocate any vehicles (e.g. car, campervan, boat, trailer). (Kent can professionally handle **vehicle and car transport** as well)
- Arrange for pet relocation and make a visit to your vet for a copy of your pet's records (or use Kent's exceptional door-to-door **pet transport service**)
- Organise any home maintenance or repairs required under your lease or contract of sale
- Order any new furniture now, for delivery to your new address
- Start keeping track of incoming mail to notify senders of your change of address
- Collate important documents (e.g. birth certificates, medical records, wills, house titles) and store in a waterproof/fireproof case
- Make a stocktake of belongings and decide what to keep, donate, sell or discard:
  - > Clean out your garage, garden shed, attic, closet and other storage spaces
  - > Place ads, hold a garage sale or eBay any unwanted goods
  - > If you have a lot of rubbish, book a skip or hard waste collection
- Plan to finish any open packets in your pantry and start using up frozen food items (creating a meal plan is a great way to ensure all your perishables get eaten)
- Research lifestyle information around your new home (e.g. supermarket, petrol station, doctor and parks)
- If moving to a new area or different city, explore schooling options and enrol children. Notify current schools and arrange for records to be transferred. Arrange to purchase school uniforms and text books.

# Moving House Checklist and Tips

## One Month to Moving Day

Over the month before your move, follow this moving checklist:

- If you're renting, give the landlord (or agent) notice in writing and book a final inspection date so you can recoup any bond paid
- Finalise and 'lock-in' your moving date (and settlement times if relevant) with your removalist
- Request time off-work for moving day, and perhaps the day prior as well
- List any precious, special or fragile items that need special handling during the move. Advise your removalist in case special protective packing or crating is needed. (Kent professionally move large objects like pianos or pool tables and custom wrap or build protective crates if required.)
- Arrange insurance for your belongings in case of loss or damage during transit (existing contents insurance is unlikely to cover all aspects of your move - Kent offers several **cost-effective insurance options**)
- Start packing because this is the most time-consuming part of your move and will take longer than you think. Refer to our **Moving House Packing Tips** if choosing to pack yourself. Alternatively, using your removalist's **professional packing service** will save time and trouble. (Time and cost-effective Kent packers will look after all or part of your packing and unpacking)
- Check manufacturer's moving instructions for large appliances like washing machines and fridges (to avoid damage, most front loaders require transit bolts fitted and ice makers should be drained)
- Change your address with all important contacts, including the electoral commission, tax office, roads authority, bank, insurance, accountant, lawyer, your employer and so on
- If you have pets, change their council registration details
- Collect all the keys to your current home, including any spares held by family members or friends
- Gas bottles and air cylinders should be certified empty, with valves open, and safely dispose of dangerous materials such as flammable liquids or paints (see our **Moving House Do's and Don'ts** for more information)

### DIY packing tips:

- Decide which belongings you'll pack and which to leave for your removalist
- Most people run out of packing material (e.g. boxes, bubble wrap, tape, marker pens, small and large zip-lock bags) so always buy more than you think you'll need to avoid untimely shopping trips or making do (Kent has a big range of **inexpensive, high quality packing supplies**)
- Use clean, white paper (e.g. 'butcher's paper') for packing as newspaper will leave stains
- Number and label every moving box clearly, listing its contents, and create a colour code system to designate room destination for each box (use a different colour of marker or label for each room)
- Prepare a separate inventory list detailing box numbers and contents
- Start by packing the belongings you use least (e.g. books, CD/DVDs, items stored in the roof space or garage)
- Pack lighter items in bigger boxes and heavier items in smaller boxes
- Consolidate smaller objects that could go missing in a larger box
- Save on space by using vacuum seal bags for out-of-season clothing
- Pack things inside of awkwardly shaped items (e.g. baskets, laundry bins, suitcases) then pack these in larger boxes to secure and stack them more efficiently when moving
- Dismantle furniture that comes apart easily that you don't need before your move (Kent professional **ancillary moving services** include the disassembly/reassembly of your furniture)
- Place any removable hardware (e.g. screws, bolts) from dismantled furniture and other items in a small clear plastic bag or container. Tape bags to larger pieces or safely secure your container elsewhere.
- For additional advice, check out our separate **Moving House Packing Tips** list.

# Moving House Checklist and Tips

## Two Weeks to Moving Day

In the fortnight before your move, use this guide for moving house:

- Check any repairs or alterations to your new/old home will be finished by moving day (e.g. painting, carpet)
- Notify utility services (e.g. gas, phone, electricity) and organise for disconnection/reconnection. (Kent can easily arrange this for you)
- Check with any relevant authorities for any moving requirements, restrictions and protocols (i.e. council, body corporate or building manager for parking and access restrictions, and building, traffic management, and lift protocols)
- Arrange mail redirection through Australia Post
- Stop or redirect subscriptions and deliveries (e.g. newspapers, magazines, groceries)
- Cancel any regular domestic services (e.g. gardener, cleaner)
- Organise cleaning, for your *new* home before moving in and, your *old* home when you've moved out. (Kent has an excellent team of **cleaning and valet professionals**)
- Ask family or friends to care for children and pets on moving day. Or book boarding for pets
- If moving pets yourself, visit the vet for a check-up and ask how to make your pet's move safe and comfy (otherwise Kent can assist with their safe, stress-free boarding and/or relocation)
- Continue packing and cleaning as you go
- Backup all computers and other devices. Store backup files safely and separately
- Disassemble outdoor items (e.g. swing sets, cubby houses, trampolines) or ask a Kent professional to help
- Book your car in for a service if you will be driving a long distance
- Measure up your new home and create a floor plan to ensure furniture fits, and to assist on move day
- Confirm any orders placed for delivery to your new home are on schedule (e.g. furniture, carpet)
- Pick up dry cleaning and return any borrowed items (e.g. library books, DVDs)
- If you don't have enough prescription medicine to last up to a week after your move, refill prescriptions
- Confirm removalist payment options and requirements.

# Moving House Checklist and Tips

## One Week to Moving Day

This moving house tips list keeps you on track the week before moving:

- Make arrangements with your solicitor or agent to collect keys to your new home
- Home purchasers should book a final inspection 24-48 hours before settlement to ensure the property is in agreed order
- Book a locksmith to change the locks at your new home on moving day (Kent can organise this and other tradesman or handyman services)
- Arrange convenient parking and unobstructed access for the removalist van at both your old and new homes
- Confirm these details with your removalist: 
  - > Old and new addresses, access details and mobile phone contacts
  - > 'Customer Acceptance' of your moving agreement has been returned
  - > Any additions or changes to your Removal Plan (e.g. destination, settlement times, packing/unpacking requirements)
  - > Insurance requirements and return of documents
  - > Payment options and requirements
- Organise a specially marked box to pack important small items in (e.g. remotes, keys, phone charger). This will be the last box sealed and the first box opened. (Kent use a brightly coloured 'Bits & Pieces' box)
- Pack bedding and towels to be used in your new home on moving day and label clearly. (This should be one of the last boxes loaded so it is one of the first unloaded)
- Photograph cords and connections before dismantling any computer equipment, AV or other electronics. This will help you reconnect quickly at the new house. (Kent has experienced IT/AV specialists to assist with disconnection/reconnection)
- Moving and packing tips for cosmetics: 
  - > Place a cotton ball or pad in powder cosmetic cases to prevent breaking up
  - > Cover the top of open toiletries with glad wrap, then screw the lids back on
- Avoid spills by tightening lids on jars and bottles in the pantry or fridge before packing
- Pack plates vertically (like records) as they are less likely to break
- At this point you should have a good handle on packing. If running out of time and feeling overwhelmed, it's not too late to organise professional packers. (Kent can assist you with efficient **professional packing, cleaning, organising and other ancillary moving services**)
- Lightly water pot plants and pack into plastic lined boxes. Keep in mind soil is heavy and can cause pots to crack under transit movement
- Drain petrol and oil from any gardening tools and other motors (e.g. lawn mower, whipper snipper)
- Confirm any travel arrangements and accommodation bookings
- Use the last of the food in your fridge, freezer and pantry
- Settle any outstanding utility bills and council rates.

## The Day Before Moving Day

### Follow this moving checklist the day before your move:

- If Kent professional packers have been arranged, they will arrive at your home today. Give them clear instructions and remember you, or your representative, must be in attendance at all times
- Gather together jewellery, passports, identification, important documents and other essential items you may need on moving day so they are not inadvertently packed
- Make sure you call your removalist if you have any changes to your Removal Plan (e.g. delivery destination, contact details, settlement times)
- Check that anyone requiring payment prior to move day has been paid (e.g. removalist, cleaners)
- If you have keys to your new home, take care they are not packed in a box loaded onto the moving truck
- Put together an 'Essentials Kit' with basic needs for moving day (e.g. medications, first aid, coffee, tea, kettle, mugs, snacks, dog leads, pet food)
- Another tip for move day to save you precious time is to put together a 'Mini Toolkit' with essential tools, packing tape, a torch and Stanley knife. Place this into your important 'Bits & Pieces' box
- Pack a bag for each family member containing necessities (e.g. change of clothes, sleepwear, toiletries, favourite toys for children)
- Clean the fridge and defrost your freezer
- Drain any liquid from your washing machine, ice maker, iron, garden hose and sprayers
- Install washing machine 'shipping bolts' to prevent transit damage
- Put all your valuables in a safe place
- Charge all mobile phones and place phone chargers into your 'Bits & Pieces' box
- Ensure the important phone numbers stored in your mobile are written on a piece of paper (e.g. removalist, real estate agent) just in case your battery runs down or phone gets misplaced
- Confirm your gas, electricity and water meters are scheduled for reading and disconnection
- Keep your important 'Bits & Pieces Box' handy on the kitchen bench to add any last minute items
- Check everything is clean and organised at your new home (e.g. kitchen and bathrooms cleaned, vacuumed)
- Try to get a good night's sleep.

# Moving House Checklist and Tips

## Moving Day

### Follow this moving out checklist at your *old* home:

- Check access to your property is adequate, clear and unobstructed for the moving truck, to ensure your removalists have easy access and costly delays don't occur
- Take the removalists around your home, giving clear instructions and explain your colour code system. You, or an adult you authorise, must be present at all times the removalists are at work in your home
- Ensure 'high priority' boxes, mentioned earlier in this moving checklist, are easy to access, clearly labelled and identified to your removalists so they are loaded last and are first off (e.g. 'Bits & Pieces' box, 'Essentials Kit', 'Mini Toolkit', fresh linen/towels)
- Confirm that all scheduled belongings are loaded into the moving van
- Verify your destination address and contact phone number before the removalists leave
- As a general rule, and especially if any belongings are going into storage or being shipped interstate/overseas, check the inventory carefully before signing off
- Carry valuables like jewellery, passports and important documents yourself
- Do one last house clean (or have Kent cleaners come in afterward)
- Leave a note at your old home with a forwarding address
- Do one final check on move day to make sure: 
  - > No belongings have been forgotten
  - > Utilities are disconnected or switched off
  - > All doors and windows are locked
  - > Garage door opener is left behind
- House keys should be dropped into your solicitor or returned to the rental estate agent.

### Follow this moving house checklist at your *new* home:

- If renting your new home, our first tip for move day is to complete the condition report (two copies, one for you and one for the agent). Take photos for your records
- Make sure the previous occupants haven't left anything behind and consolidate any items in one place
- Make sure all your utilities are connected
- Check access to your property is adequate, clear and unobstructed for the moving truck
- Take the removalists around the house, identifying "which room is which" and areas corresponding to your colour code system
- Give the removalists a copy of your furniture placement floor plan
- Make sure high priority boxes are off-loaded first (e.g. 'Bits & Pieces' box, 'Essentials Kit', 'Mini Toolkit', fresh linen/towels)
- As a general rule, and especially if your belongings were shipped from interstate, overseas or storage, check their condition carefully before signing the inventory
- Check the hot water service works (it may require time to heat after the gas pilot is relit or electricity fuse switched 'ON')
- Check that no poisons or toxic substances have been left behind (e.g. weed killers, insecticides, rat poison)
- Confirm the house and garden are pet and child friendly before letting animals or children explore
- Check fences are 'escape proof' for animals
- Stand your fridge in its new position for at least 3 hours before switching on to allow the coolant gas to settle
- Remove washing machine 'shipping bolts' and save in safe place
- Assemble and make up your beds as soon as possible
- Start unpacking the kitchen, bathroom and other key areas. (If you need help or the job gets too big, ask about **Kent Valet Services**. From cleaning and unpacking, to organising and styling rooms, our experienced Valet Team helps you quickly and effortlessly set up and settle in to your new home)
- Call your removalist to arrange pick-up of your empty boxes
- Say "hello" to your new neighbours and enjoy your new home.
